Department MR 2397
P.O. Box 55819
Boston, Massachusetts 02205-5819

Dear Mr. Stanton:

This responds to your Freedom of Information Act (FOIA) requests of December 21, 2012, requesting all documents, records and cross-references pertaining to the work done by Berico Technologies for the 780th Military Intelligence Brigade, including but not limited to: statements of work, bills of sale, training materials, assessments, emails, etc..

Please be advised that when your FOIA request, our case number #1454F-13, and this FOIA request, our case number #2844F-13, came into this office, they were combined into our case #1454F-13. Upon discovery a second case was opened and processed. We apologize for the inconvenience.

Coordination has been completed and no records responsive to your request were located.

Please note that records maintained by this command, within the U.S. Army Investigative Records Repository (IRR), consist of reports of intelligence operations and projects and of investigations of persons, incidents, events, or organizations of intelligence interest. Identification of records in the IRR is through a computerized index known as the Defense Central Index of Investigations (DCII). Records in the DCII are not identifiable or retrievable by the name of the person or unit that originated the record. In order to determine if responsive records exist in the IRR, the DCII is queried as follows:

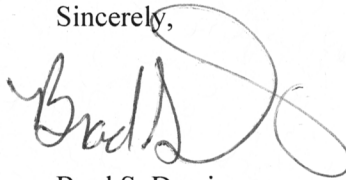

The MASTER NAME INDEX: This index contains the names of specific individuals who have investigative files maintained within the Department of Defense. Information is retrieved from the MASTER NAME INDEX using the individual's full name and personal identifying data (PID), (date and place of birth, and social security account number).

The NAME ONLY INDEX: This index includes impersonal titles that identify an incident, event, project, operation, or organization of intelligence interest. The index is keyed to the requested "name only" and a determination of whether the file is identifiable with the subject requested can only be made through review of the file retrieved under that name.

If you could provide this office with the contract number, we will query our database and check with other elements of our command in an attempt to assist you.

If you have any questions regarding this action, feel free to contact this office at 1-866-548-5651, or email the INSCOM FOIA office at: usarmy.meade.902-mi-grp.mbx.inscom-foia-service-center@mail.mil and refer to case #2844F-13.

Sincerely,

A handwritten signature in black ink, appearing to read "Brad S. Dorris", with a large, stylized flourish at the end.
